Technical Skills

Languages and Databases: C, Python, HTML, CSS, JavaScript, TypeScript, SQL, MongoDB
Development Framework & Stacks: Next.js, MERN Stack, ASP.NET
Other Skills: Version Control, Kafka, Docker, WebSockets, Redux, Redis
Problem Solving: Solved 110+ problems on Leetcode using Python, focusing on DSA and algorithmic thinking.

Experience

Web Developer | Animation Media **Aug 2025 – Present**
Lucknow, India

- Developed and maintained responsive full-stack web applications using PHP frameworks like **Laravel and CodeIgniter.**
- Improved UI/UX and **fixed responsiveness issues** across multiple live projects to ensure cross-device compatibility.
- Utilized **Git for version control** and participated in code reviews to maintain clean and efficient codebases.
- Integrated and tested APIs using tools like Postman, ensuring seamless backend–frontend communication.

Internship – **MERN Stack Developer | Saahi Global Services** **Jan 2024 – Jun 2025**
Lucknow, India (6 months)

- Developed and deployed responsive full-stack web applications using **MongoDB, Express.js, React.js, and Node.js (MERN stack)**.
- Designed and implemented **RESTful APIs** with robust **JWT-based authentication** for secure user management.
- Collaborated in an **Agile environment**, using **Git for version control** and **Postman** for API testing and validation.
- Successfully **deployed production-ready applications** on platforms like **Render and Netlify.**

Summer Training | Digicoders Private Limited **July 2024 – Aug 2024**
Lucknow, India (1.5 months)

- Gained hands-on experience in **HTML, CSS, JavaScript, C, Bootstrap**, and **ASP.NET**.
- Developed a project called **"Online City Representation for Tourism"** using **ASP.NET MVC**, focusing on designing an interactive and informative platform for tourists.
- Received the **Best Performer** award for exceptional performance throughout the training.
- Secured **first rank** in each quiz on **CSS, C, and JavaScript** in the batch, demonstrating strong technical proficiency.

Personal Projects

1. **ChessWar: Real-Time Multiplayer Chess Game | React Js, WebSockets, TypeScript** **Aug 2024 - Sep 2024**
   - Developed and deployed a real-time multiplayer chess game, **ChessWar**, enabling interactive gameplay through WebSockets.
   - Built the backend with Express.js and WebSockets, ensuring smooth real-time player interactions and efficient game state synchronization.
2. **Needify: Service Marketplace Platform | Next.js, Socket.IO, Cloudinary, MongoDB Atlas** **Mar 2025 - Present**
   - Developing Needify, a **location-based service marketplace** that connects local service providers with customers through **real-time chat, profile exploration, and user engagement features.**
   - Currently optimizing performance to handle high request volumes and planning **Redis integration** to improve scalability and response times, as part of an ongoing effort to enhance speed and reliability.
3. **Vedika Restaurant: Restaurant Management Platform | HTML, CSS, JS, Express.js** **Nov 2025 - Jan 2025**
   - Developed a restaurant management system for Vedika Restaurant featuring online ordering and a notification system using service workers.
   - Integrated a **secure payment gateway** for seamless transactions and designed an interface for staff to view previous orders.

Education

Government Polytechnic **Aug 2022 – June 2025**
Diploma in Computer Science And Engineering *Aadampur, Gonda*
