ADITYA KUMAR

6204542196 | adityasah841208@gmail.com

Full-stack developer with experience building and deploying scalable web applications across multiple tech stacks, with strong problem-solving and critical thinking skills.

Technical Skills

Languages: C, Python, PHP, JavaScript (ES6+), TypeScript, SQL
Frontend: HTML, CSS, React.js, Next.js, Tailwind CSS, Bootstrap, React Native (basic)
Backend: Node.js, Express.js, ASP.NET MVC, Laravel, CodeIgniter 3
Databases: MySQL, MongoDB
Tools & Others: Git, Docker, Kafka, Redis, WebSockets, Redux, BullMQ, Postman, DSA (200+ LeetCode)

Experience

PHP Developer | Animation Media **Aug 2025 – Feb 2026**
Lucknow, India

- Contributed to multi-tenant Temple Management SaaS applications in a collaborative development environment.
- Worked on both frontend and backend development using CodeIgniter 3 in a collaborative team environment.
- Reduced Logistics management system latency by 90% by implementing optimized database indexing.
- Used **Git for version control, FileZilla and PuTTY** for deployment, and **Postman** for API testing.

Internship – **MERN Stack Developer | Saahi Global Services** **Jan 2025 – Jun 2025**
Lucknow, India (6 months)

- Developed and deployed 2 responsive full-stack web applications including a personal blog and a quiz system with real-time student video streaming via a custom signaling server.
- Designed and implemented RESTful APIs with JWT-based authentication for secure user management.
- D**eployed production-ready applications** on **Vercel**, **Render, and Netlify.**

Summer Training | Digicoders Private Limited **July 2024 – Aug 2024**
Lucknow, India (1.5 months)

- Gained hands-on experience in **HTML, CSS, JavaScript, C** and **Bootstrap**.
- Built a **Smart City Tourism Website** using ASP.NET MVC with lightweight JS scroll animations.
- Earned Best Performer award with consistent top ranks in technical quizzes during training.

Personal Projects

1. **ChessWar: Real-Time Multiplayer Game | React.js, WebSockets, TypeScript** **Aug 2024 - Sep 2024**
   - Developed and deployed a real-time multiplayer chess game enabling users to match with random online opponents.
   - Built the backend using Express.js and WebSockets.
2. **Needify: Service Marketplace Platform | Next.js, Socket.IO, Cloudinary, MongoDB Atlas** **Mar 2025 – June 2025**
   - Developed Needify, a **location-based service marketplace** that connects local service providers with customers through **real-time chat, profile exploration, and user engagement features.**
   - Implemented Redux for state management, Docker for containerization, and a dedicated Node.js server for real-time chat using Socket.IO.
3. **Tap More: Digital NFC Card | Next.js, MongoDB Atlas, BullMQ** **Nov 2025 - Present**
   - Developing a digital identity marketplace enabling users to connect with like-minded people, generate leads, and showcase achievements.
   - Built on Next.js, implemented a notification system using BullMQ, and added unique username detection using Bloom Filters for optimized lookup performance.

Education

Government Polytechnic **Aug 2022 – June 2025**
Diploma in Computer Science and Engineering *Aadampur, Gonda*
